Project Integration Engine 2010 Uninstall Guide

Author: Michael Bear

Date: 12 Oct 2018

Version: 2.0

Overview

This document describes the steps to uninstall ThorApps Project Integration Engine (PIE) 2010 from a SharePoint 2010 farm.

Prerequisites

To follow this guide, you will need the following items:

- A computer with internet access
- Remote console access to the server hosting SharePoint Central Administration (directly or via remote desktop)
- SharePoint farm administrator rights with to deploy SharePoint farm solutions.

Un-installing Project Integration Engine

On the server hosting SharePoint Central Admin, open Central Admin from the start menu (to ensure it is opened as an administrator).

Click "Manage farm features" under the System Settings menu group.

Locate "Project Integration Engine".

Click "Deactivate".

Click "Deactivate this feature".

Click "System Settings" in the quick launch.

Click "Manage farm solutions".

Solution Information

Information on the solution you have chosen to retract.

Name:	thor.ps.pie.wsp
Locale:	0
Deployed To:	http://thorapps.dev2.local/
Deployment Status:	

Retract When?

A timer job is created to retract this solution. Please specify the time at which you want this solution to be retracted.

Choose when to retract the solution:
◉ Now
○ At a specified time:
10/12/2018   12 PM 00

Retract From?

The solution contains Web application scoped resources and should be retracted from specific Web applications. Please choose the Web application where you want the solution to be retracted from.

Choose a Web application to retract this solution:
All content Web applications

OK   Cancel

Wait for the SharePoint to complete retracting the solution.
