ThorApps On-Premise Services

Project Integration Engine 2013

_____

Uninstall Guide

Overview

This document describes the steps to uninstall ThorApps Project Integration Engine (PIE) 2013 from a SharePoint 2013 farm.

Prerequisites

To follow this guide, you will need the following items:

- A computer with internet access
- Remote console access to the server hosting SharePoint Central Administration (directly or via remote desktop)
- SharePoint farm administrator rights with to deploy SharePoint farm solutions.

Step 1

On the server hosting SharePoint Central Admin, open Central Admin from the start menu (to ensure it is opened as an administrator).

Click "Manage farm features" under the System Settings menu group.

Central Administration

- Application Management
- System Settings
- Monitoring
- Backup and Restore
- Security
- Upgrade and Migration
- General Application Settings
- Apps
- Office 365
- Configuration Wizards

⊗ The SharePoint Health Analyzer has detected some critical issues that require your attention. View these issues.

Application Management

Monitor Apps

Configuration Wizards

Locate "Project Integration Engine".

Click "Deactivate".

	Office.com Entry Points from SharePoint		Deactivate	Active
	This feature enables entry points from the SharePoint user interface that allow users to browse SharePoint solutions from Office.com			
	Offline Synchronization for External Lists		Deactivate	Active
	Enables offline synchronization for external lists with Outlook and SharePoint Workspace.			
	Project Integration Engine		Deactivate	Active
	The Project Integration Engine will process a variety of Entity Types into a Microsoft Office Project Server Project Web App Instance. Use the Project Integration Engine to Create, Update or Delete Projects, Resources, Project Tasks, Project Task Assignments, Lookup Tables and Task Updates.			
	SharePoint Server to Server Authentication		Deactivate	Active
	This feature provides the server to server authentication capabilities.			
	Site Mailboxes		Activate	
	Enables the provisioning of an Exchange mailbox for sites on this farm and connects the documents from the site to Outlook.			

Click "Deactivate this feature".

Solution Information
Information on the solution you have chosen to retract.

Name:	thor.ps.pie.wsp
Locale:	0
Deployed To:	http://project.dev3.local/
Deployment Status:	Deployed

Retract When?
A timer job is created to retract this solution. Please specify the time at which you want this solution to be retracted.

Choose when to retract the solution:
- ● Now
- ○ At a specified time:
  10/12/2018   2 PM ▾ 00 ▾

Retract From?
The solution contains Web application scoped resources and should be retracted from specific Web applications. Please choose the Web application where you want the solution to be retracted from.

Choose a Web application to retract this solution:
All content Web applications ▾

OK   Cancel

Wait for the SharePoint to complete retracting the solution.
